Chris Boman was quoted in *HVACR Business* on March 1, 2015. The article “Choosing the Right Lawyer is Crucial to Success” offered up tips on what you need to know to hire an attorney before it’s too late.

Chris was quoted on why employers need to hire a lawyer.

“There is no end to the rise of employment litigation,” said Chris. “This is something every employer needs to invest in — especially with his or her knowledge base.”

“You should understand how billing is going to happen,” Chris noted. “Ask questions about the lawyer’s philosophy and strategy.”

“I work with my clients to avoid lawsuits and eliminate risks,” Chris said. “The more proactive you are with your lawyer, the greater the chances you won’t get into trouble. I can address things up front that will limit or avoid liability altogether.”

“If you have employees, you need an employment lawyer,” Chris stated. “An employee benefits specialist would not be equipped to handle a wrongful termination case.”
