

Rick Grimaldi Interviews on the "YOLO Economy" and Post-COVID Work Environment

News
4.26.21

Rick Grimaldi spoke with Jimmy Cefalo from South Florida's First News for a segment on how the COVID-19 pandemic has led to the "YOLO economy" and lasting changes to the workplace. The YOLO economy is a recent phenomenon where employees are quickly leaving employers who aren't providing flexible work arrangements or are rapidly quitting their jobs to pursue entrepreneurial opportunities. Rick explores how the pandemic has changed the employer-employee relationship where more flexibility might be required, or a balance may need to be struck between in-person and remote work. He also predicts that employers will pay closer attention to ensuring a safe workplace and providing more transparency and communication with their employees.
