

HR Vendor Assessment in the Age of Employment Data Privacy

Event

8.09.22

9:00 AM — 10:00 AM PST

Sponsored by Fisher Phillips and Vault Verify

As recently as two years ago, it seemed that only large multi-national businesses and EU-based corporations needed to worry about corporate data privacy. Today, it's everyone's concern. Not only do a growing number of states have new or pending legislation that places sweeping restrictions on the use of consumer and employee data, these restrictions place the responsibility squarely on you – the employer – to understand, manage, and mitigate exposure. And regardless of the law in your area, your employees now view the protection of their employment information to be your obligation – which means you need to be equipped to identify, understand, and measure your data exposure.

Join us for this interactive webinar led by Fisher Phillips' Privacy and Cyber team leaders and the president of one of the nation's foremost tech-based HR software companies to gather insights and guidance on how employers can address these issues. You'll walk away with a five-step plan to reduce your risk and limit exposure when sharing employee data with third parties, including proposed contractual and negotiating terms to protect employee data and mitigate employer risk in the event of a breach.

The firm is submitting this webinar for HRCI/SHRM credit.

Fisher Phillips will make all reasonable efforts to obtain CLE credit for this program in every state that is relevant to attendee's MCLE needs. In certain instances, some programs may not be awarded CLE credit because of content, delivery or jurisdictional restrictions.

As this event is sponsored by Fisher Phillips and Vault Verify, the RSVP list and information provided at registration will be shared among both sponsors. By registering for this event, you understand you may be contacted by each sponsor.
