

# Labor Relations Issues That Keep Contractors Up At Night

Event

6.20.24

2:30 PM — 3:30 PM EST

Contractors are faced with a multitude of labor and employment issues. The Fisher Phillips Construction Team is here to help construction employers navigate the unique challenges you're facing no matter where you're located.

Join us for the fifth of a seven-part webinar series for the construction industry as we provide an overview of the labor relations issues that keep contractors up at night, including a deep dive into subjects that include:

- Navigating the difference between 9(a) and 8(f) agreements, including tricky termination issues for electrical contractors and members of multi-employer associations;
- The current landscape of project labor agreements (PLAs) in both the public and private sector, along with specific requirements under the Federal Acquisition Regulations (FARs) on current federal projects;
- The NLRB's Cemex decision, union demands for recognition, and the need to quickly respond and campaign; and,
- Double-breasted operations and the paradigm shift;

We will highlight those issues that are most pertinent to contractors and, where appropriate, offer practical solutions to those issues.

If you have any questions, please contact **Stacey Higgins**.

---

Please save the dates for our upcoming webinars where we will go more in-depth for each practice area above and provide you with the tools to address construction-related labor and employment challenges with confidence.

Upcoming webinar dates:

- July 11, 2024 – Immigration
- July 25, 2024 – Employee Benefits

---

*Fisher Phillips is committed to providing access to all of our events for disabled attendees. Automated closed captioning is available for all of our webinars. For other accommodation inquiries, please give us three business days advance notice prior to the scheduled event by contacting **Stacey Higgins**. Thank you.*
