Contractors are faced with a multitude of labor and employment issues. The Fisher Phillips Construction Team is here to help construction employers navigate the unique challenges you're facing no matter where you're located.

Join us for the last of a seven-part webinar series for the construction industry as we provide an overview of the employee benefits issues that keep contractors up at night, including a deep dive into:

- If you are a union employer, do you know what withdrawal liability is and how much it can cost you?
- How does withdrawal liability work in the construction industry, and how can you use project labor agreements to limit your exposure?
- How do you defend against union benefit trust fund audits and lawsuits?

We will highlight those issues that are most pertinent to contractors and, where appropriate, offer practical solutions.
