

# Workplace Precautions & Response to Coronavirus

Event

[GoToWebinar](#)

3.04.20

11:00 a.m. – 12:00 p.m. EST

The concept of a little understood pandemic may frighten people, cause them to jump to conclusions and act unwisely. The approach to any infectious disease concerns in the workplace is to stay on top of ongoing public health guidance, thoughtfully weigh the risks, and make measured decisions.

In this webinar, join Fisher Phillips attorney [Howard Mavity](#) to discuss the most current CDC and World Health Organization (WHO) guidance and its role in determining workplace precautions, when to require employees to stay home or undergo medical examinations, and how to handle communications within the office. It is essential to educate and keep employees up to date with clear communications to avoid unnecessary panic. We will also discuss travel issues and other ways to protect employees.
